

SUMANT BHAT

Bangalore, Karnataka • +91 6364209277 • sumantsbhatta@gmail.com • linkedin.com/in/sumantsbhat • github.com/Sumantbhatta

PROFESSIONAL SUMMARY

Full Stack Developer (Mobile & Web) with hands-on experience designing, building, and deploying production-grade applications. Proficient in Flutter, ReactJS, and Node.js with end-to-end product exposure from UI/UX design and REST API integration to VPS hosting, cloud deployment, and domain management. Passionate about building scalable, user-centric software solutions that solve real-world problems.

WORK EXPERIENCE

Mobile Application Developer | **Flione Innovation & Technology Pvt Ltd** RR Nagar, Bangalore | Dec 2025 – Present

- Design and develop cross-platform Flutter mobile applications for Android and iOS, contributing to live production products.
- Integrate REST APIs, Firebase, and GCP services to connect mobile UI with backend infrastructure and real-time data.
- Own the full product lifecycle requirement gathering, UI implementation, testing, deployment, and continuous iteration.

Full Stack Developer | **Connectia Technology (Freelance)** Remote | Nov 2025 – Present

- Build and deliver full-stack solutions across client projects using Node.js, Express.js, MongoDB, and ReactJS.
- Develop and consume RESTful APIs; implement responsive frontend interfaces with Flutter and React for diverse use cases.

Frontend Developer Intern | **Alt Digital Technologies** Sirsi, Karnataka | May 2025 – Jul 2025

- Built responsive UI components and form modules for an Equipment Management Dashboard using Next.js, React Hook Form, Zod, and Radix UI.
- Collaborated cross-functionally and explored Spring Boot fundamentals for backend integration and data flow understanding.

PROJECTS

ScanAI - Healthcare Diagnostic Platform Flutter • React | 2026 – Present

- Architected a multi-device healthcare platform (ECG, X-ray) with Flutter mobile and React web apps; integrated external medical devices for real-time diagnostic data capture and visualization.
- Designed backend services for secure storage, retrieval, and structured display of patient diagnostic records across modalities.

EGPG - Full Stack PG Rental Platform Node.js • React • MongoDB | Oct 2025 – Present

- Built an end-to-end PG accommodation platform eliminating double-booking and manual processes; integrated Google Maps API for live discovery and Razorpay for payments.
- Deployed on custom domain with VPS; independently configured DNS records, cPanel, SSL certificates, and full server environment.

Lezzqoo - Trip & Meetup Social Platform Flutter • Firebase | Jan 2026 – Mar 2026

- Sole developer end-to-end designed and shipped a social platform for trip and meetup coordination; built core modules including social feed, real-time chat, notifications, and alarm/reminder system with offline and background state handling.
- Owned full meetup/trip lifecycle state management, UI/UX modernization, live-sharing features, and production-readiness improvements resulting in a polished, scalable Flutter application deployed to Google Play.

KSVP - Complete School ERP Platform Flutter • REST APIs | Dec 2025 – Feb 2026

- Led Flutter app development for a full-featured school ERP built dedicated parent and teacher apps synced with the web platform, covering admission, attendance, transport, and more under a single unified system.
- Collaborated with a cross-functional team to design and deliver the mobile layer of the ERP, ensuring seamless real-time sync between the Flutter apps and the existing web infrastructure.

Srinivas University App Flutter • Firebase | Dec 2024 – Mar 2025

- Cross-platform mobile app centralizing academic info, announcements, and event updates with push notifications and calendar-based reminders for students and faculty.

TECHNICAL SKILLS

Mobile & Frontend: Flutter, React Native, ReactJS, Next.js, Figma (UI/UX)

Backend & Databases: Node.js, Express.js, Firebase, Supabase, MongoDB, REST APIs

Languages: JavaScript (ES6+), Dart, Java

Deployment & DevOps: Vercel, Railway, Render, GCP, VPS, cPanel, Ovi Panel, SSL, DNS (Namecheap, Spaceship, Name.com)

Tools & Integrations: Google Maps API, Razorpay, Zod, Radix UI, React Hook Form, ERP Systems

EDUCATION

B.Tech — Computer Science & Engineering | **Srinivas University, Mukka, Mangalore** CGPA: 8.95 | 2022 – 2026

- Best Outgoing Student - CSE Department

HOBBIES & INTERESTS

Guitar, Tabla & Singing • Exploring New Places • Peer Tutoring • Fast Typing • Designing • Vibe Coding
